

Leela Eco Spa

Seton, Calgary

Spa architectural design is all about creating a space that promotes relaxation, rejuvenation, and overall well-being. The goal is to create a holistic environment that nurtures the body and mind, providing a sanctuary from the stresses of everyday life.

Layout and Flow: The design facilitate a smooth and intuitive flow from one area to another. This includes distinct zones such as treatment rooms, relaxation areas, changing rooms, and water features. The layout also provide a sense of privacy and tranquility.
